Freaks N' Guilds was formed in Q3 2021 by the Co-Founders Cody Clayton and Alex Miller. They quickly selected their core executive team that has been instrumental in the establishment and development of the Company. From there, the team developed a strategy to deploy the Freaks N' Guilds name, as well as build & incentivize the community in an organic manner – the launch of the Celestial Key. This will be followed by the launch of their OnChain PvP NFT Game. These NFTs will be collectable in nature and provide excellent insights into the hard work that the team is doing day-in & day-out.

To attain Freaks N' Guilds' mission, we will provide a transparent and entertaining experience for the player and the utility of their NFT's. The following key characteristics will help ensure that Freaks 'N Guild reaches its goal throughout development and launch of the project:

- PvP OnChain Game
- Robust and diverse community with associated platforms (guild/player social platform)
- Collectible and Useful in-game resources
- Incremental gaming and player levels
- Fairness through code, matchmaking and community governance

The First NFT Mint of Freaks N Guilds Is The Celestial Key on January 5th
